

UniCam - Sezione di Geologia  
Scuola di Scienze e Tecnologie

Venerdì 3 Luglio alle ore 15:00 presso il Polo di Scienze  
**PhD Thesis defence**

**Alessandro Fusari** laurea in geoenvironmental resources and risks:  
multi-disciplinary approach to geothermal systems in foredeep  
basins:  
the acquasanta terme case study (marche, italy)

**Paola Stabile** laurea in scienze geologiche:  
pantelleritic magmas: experimental study on the effect of  
[na/(na+k)] ratio and fo2 on iron redox and viscosity

**Pierluigi Stroppa** laurea in scienze geologiche:  
the geosites as tools for teaching earth sciences at school

**Vincenzo Perugini** laurea in risorse e rischi geoambientali:  
new ecosustainable cement from ceramic waste

**Lorenzo Lancellotti** laurea in scienze biologiche:  
can a website make high school teachers without a geological  
background more self confident towards earth sciences teaching?

**Tamara Carducci** laurea in rischi e risorse geoambientali:  
topographic metrics in the southern sector of the marche  
foothills:  
possible implication of rock uplift and active tectonics
